ORDER

Before the Court is the Motion to Limit Defendants' Infringement and Non-Validity Defenses [Docket Entry #89], filed by Plaintiff Good Technology Corporation ("Good"). Having reviewed the parties' briefs, and the arguments contained therein, the Court is not persuaded by the Motion and consequently, it is **DENIED**. Obviously, the Court will not consider defenses going only to claims not selected by Good as one of the ten claims being asserted now. If any of the remaining defenses are invalid, Good should move for summary judgment as to them.

SO ORDERED.
