Civil Action No. 3:12-cv-01652-M

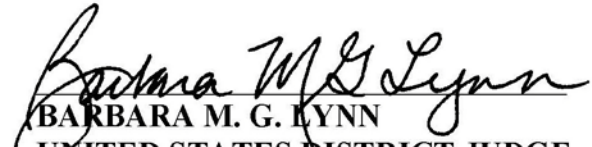

ORDER

Before the Court are the Motion to Limit the Number of Asserted Claims, filed by Defendant Research in Motion Corporation [Docket Entry #50], and the Cross Motion to Limit the Number of Terms Proposed for Construction, filed by Plaintiff Mobile Telecommunications Technologies, LLC [Docket Entry #56]. The Motion to Limit the Number of Asserted Claims is **GRANTED in part**. At this juncture, the number of patent claims Plaintiff may assert is limited to fourteen. The Court will later determine the handling of additional claims Plaintiff seeks to pursue.

The Court defers ruling on Plaintiff’s Cross Motion to Limit the Number of Terms Proposed for Construction until Plaintiff advises the Court which claims it will now pursue. The parties shall confer and jointly advise the Court on or before July 25, 2013, as to what modifications they propose to the Patent Scheduling Order in light of this ruling.

SO ORDERED.

Date: July 11, 2013.
