JURISDICTION

6. Uniloc brings this action for patent infringement under the patent laws of the United States, 35 U.S.C. § 271 *et seq.* This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

COUNT I (INFRINGEMENT OF U.S. PATENT NO. 7,690,556)

7. Uniloc incorporates paragraphs 1-6 above by reference.

8. Uniloc Luxembourg is the owner, by assignment, of U.S. Patent No. 7,690,556 (“the ’556 Patent”), entitled STEP COUNTER ACCOUNTING FOR INCLINE that issued on April 6, 2010. A true and correct copy of the ’556 Patent is attached as Exhibit A hereto.

9. Uniloc USA is the exclusive licensee of the ’556 Patent with ownership of all substantial rights therein, including the right to grant sublicenses, to exclude others, and to enforce, sue and recover past damages for the infringement thereof.

10. LG manufactures, uses, sells, offers for sale and/or imports into the United States electronic devices, including those designated V10, V20, V30, V30 Plus, X Charge, X Style, X Venture, Tribute, Rebel, Rebel 2, Fiesta, K20 Plus, K20, K10, K8, K7, K4, K3, Phoenix, Aristo, Premier, Optimus Zone, G Vista, G Flex, LG G3, G3 CDMA, G3 S, G3 S Dual, G3 LTE-A, G3 A, G3 Screen, G3 Dual-LTE, G4, G4 Dual, G5, G5 SE, G6, G Flex2, LG G Watch W100, Watch Urbane LTE, Watch Urbane 2nd Edition LTE, Watch Urbane W150, G Watch R W110, G Pad II 8.3 LTE, Stylo 2, Stylo 3, Stylo 3 Plus, Watch Style, Watch Sport, Nexus 5X, Grace, Treasure-GSM and CDMA, Risio, Harmony, Escape, Spree and Lifeband Touch, that are equipped with motion sensors (such as pedometers, gyroscopes and/or accelerometers), processors to detect motion and associated software, such as LG Health, and capable of counting steps or other periodic human motions by monitoring acceleration (together “Accused Infringing Devices”).

11. LG has directly infringed, and continues to directly infringe, one or more claims of the ’556 Patent in the United States during the pendency of the ’556 Patent, including at least claims 1-3, 5, 8-12, 15, 17-20 and 22 literally and/or under the doctrine of equivalents, by or through making, using, offering for sale, selling and/or importing the Accused Infringing Devices.

12. Should use of the Accused Infringing Devices be found to not literally infringe the asserted claims of the ’556 Patent, use of the Accused Infringing Devices would nevertheless

infringe the asserted claims of the '556 Patent. More specifically, the Accused Infringing Devices perform substantially the same function (calculating steps taken and changes in elevation), in substantially the same way (using components such as an accelerometer, inclinometer, altimeter and/or barometer and associated software), to yield substantially the same result (providing a calculation of the distance traveled by the user and the user's change in elevation). LG would thus be liable for direct infringement under the doctrine of equivalents.

13. LG has indirectly infringed, and continues to indirectly infringe, at least claims 1-3, 5, 8-12, 15, 17-20 and 22 of the '556 Patent in the United States by, among other things, actively inducing the using, offering for sale, selling and/or importing the Accused Infringing Devices having the functionality described in this Count. LG's customers who use such devices in accordance with LG's instructions directly infringe claims 1-3, 5, 8-12, 15, 17-20 and 22 of the '556 Patent in violation of 35 U.S.C. § 271. LG directly and/or indirectly intentionally instructs its customers to infringe through training videos, demonstrations, brochures, installation and/or user guides such as those located at one or more of the following:

- www.lg.com, including:
 - www.lg.com/us/support/
- www.youtube.com, including:
 - www.youtube.com/watch?v=0peYs51OLpg
 - www.youtube.com/watch?v=T7EBed4eaVw
 - www.youtube.com/watch?v=LoNkx6hdKGw
 - www.youtube.com/user/LGMobileHQ

LG is thereby liable for infringement of the '556 Patent under 35 U.S.C. § 271(b).

14. LG has indirectly infringed, and continues to indirectly infringe, at least claims 1-3, 5, 8-12, 15, 17-20 and 22 of the '556 Patent in this judicial district and elsewhere in the United States by, among other things, contributing to the direct infringement by others including, without limitation customers using the Accused Infringing Devices, by making, offering to sell, selling and/or importing into the United States, a component of a patented machine, manufacture or combination, or an apparatus for use in practicing a patented process, constituting a material part of the invention, knowing the same to be especially made or especially adapted for use in infringing the '556 Patent and not a staple article or commodity of commerce suitable for substantial non-infringing use.

15. LG will have been on notice of the '556 Patent since, at the latest, the service of this complaint upon LG. By the time of trial, LG will have known and intended (since receiving such notice) that its continued actions would actively induce the infringement of claims 1-3, 5, 8-12, 15, 17-20 and 22 of the '556 Patent.

16. LG may have infringed the '556 Patent through other devices and software utilizing the same or reasonably similar functionality. Uniloc reserves the right to discover and pursue all such additional infringing software and devices.

17. Uniloc has been damaged by LG's infringement of the '556 Patent.

PRAYER FOR RELIEF

Uniloc requests that the Court enter judgment against LG as follows:

- (A) declaring that LG has infringed the '556 Patent;
- (B) awarding Uniloc its damages suffered as a result of LG's infringement of the '556 Patent;
- (C) awarding Uniloc its costs, attorneys' fees, expenses and interest, and

(D) granting Uniloc such further relief as the Court may deem just and proper.

DEMAND FOR JURY TRIAL

Uniloc hereby demands trial by jury on all issues so triable pursuant to Fed. R. Civ. P. 38.

Date: October 13, 2017.

Respectfully submitted,
